*B. Director Cindy Pieprzica gave a status report on the Lower Colorado River Authority (LCRA) grant paperwork. We are not selected by the Community Development Partnership Program Review Committee.

Also, the GVTC grant committee likes to grant funds to projects that have started and are near completion. Director Pieprzica will reapply once the project has started.

The Directors were made aware of the weekly zoom meeting with Mary Yearwood of the Professional Grant Writers organization being held on Wednesdays at 9:00 a.m. Inquiry was made regarding cost of service. President Parr requested an email be sent to the CEO Megan Hill with a cost inquiry. The Directors requested Mary Yearwood be asked to file for the maximum grant amounts in lieu of the current median requests.

Director Pieprzica informed of possible grant funds thru the Texas Department of Agriculture. She will ask Mary Yearwood to investigate this lead.

Discussion occurred over investing in renovation of current clinic as it appears the new clinic build is taking longer than desired. The clinic would have to be closed for several months and Dr. Flores would have to agree, the community would be without medical care...

Director Hewell disagreed with this suggestion and the Board followed with not renovating.

*C. Reviewed Indigent Care reports submitted by Lena Saenz for the month of February. The Board was made aware by Admin Bustamente that Lena is requesting a raise. Lena's last raise was two years ago. Questions raised over eligibility, HIPPA, application process and the actual forms used and how to evaluate performance. This will be addressed during Lena's in person presentation. Bustamente will send the requested inquiry to Lena. Directors Felty, Pawelek and Webb will further research HIPPA and how IC is addressed in other places.
